## Death point apk mania

Death Point is a sci-fi diving game, the player plays a very hidden super agent, the original such profession in the middle of the room was very dangerous, and the game coincided with the outbreak of war. After the end of the war, the villains who ruled the postwar world increased their vigilance and monitoring throughout the country. To make the task of completing special agents harder than usual, players must do is fight their villains through their own small efforts, and took the opportunity to overthrow the villain of terrorist rule. The image quality of the game can be said to be very refined, the lights in the room, furniture, etc. In addition, the sound of the game is very real, the player may even know that the enemy will soon be close to his own, of course, while running players, the traces of the enemy will not turn a deaf ears. The operation of the game is still very simple, double joystick control allows players to easily manipulate our hero, know that in the dive in the game for the accuracy of the operation is still relatively high, a little careless will be found by the enemy, eventually leading to the mission failed.-apkawarD.Com The left joystick is responsible for controlling the movement of the character, while the attack is responsible for the right joystick. The weapon system in the game is still very rich, of course, there will be a silencer in firearms, or a shot you find, and in addition to smoke bombs, flash bombs and other accessories, good use of these weapons allows players in They can be silently downed in the face of the enemy. The content of the game is still relatively rich, the book contains a total of 10 chapters of story content, game time up to 12 hours, different chapters in which players face challenges are different, players can use the scene each props will hide, even if it is the enemy to stand in front, do not worry, in the game the player will see the range will be highlighted, and if there is vigilance at the top of the screen And then the player should be careful hidden , While the player hides in the dark, you can also know the approximate location of the enemy through the traces of the enemy. It's a hostile feeling of my dark and intense stimulation throughout the game. This has made the challenge relatively high. : Search RSSing for similar articles...
